

Severance Middle School

Enrichment Purpose

The purpose of Enrichment is to provide Personalized Extended Learning Opportunities to allow for connections, interventions and enrichments based on student needs.

Enrichment Expectations

- The purpose of Enrichment will be met during each Enrichment class. Therefore, students will stay in their rooms and not meet with other teachers or students in other Enrichment classes during this time.
- Teachers will monitor tardies. Students should come to Enrichment prepared. If students go to lockers, they should be gone less than two minutes.
- Enrichment courses are aligned to a content area and support the learning of the standards and/or transfer and application of the standards.
- Student goals will be created to align to the objective of the nine week Enrichment course. The grade will be based on the Enrichment objective at the end of the nine weeks.
- All students can work toward having at least one quarter to choose their Enrichment outside of an intervention.
- No cell phones should be out unless a teacher has given permission due to an educational purpose.

WIN

- The purpose of What I Need (WIN) is to provide support in looking at grades and missing assignments, make-up work, study for upcoming assessments, work on a project or read a book.
- WIN occurs Wednesday of every week.
- Students and teachers will use a flow-chart to help determine and support the needs at that time.
