

WIN Flowchart

*Work on Project – students work on the project through Google Docs or on their component of the project. Students stay in their WIN class and can't work with their partner(s) unless they are in the same WIN class.

*Ask for Help – WIN is a time to ask questions or get help from their WIN teacher. Students are not able to visit other teachers during this time.

Under WIN teacher guidance, cell phones may be used to check grades/missing assignments/tardies/attendance but students should not be plugged in listening to music and/or watching videos on their cell phones or Chromebooks

Practice content skills means you can work on math facts, Spanish vocabulary, etc.
